

Apotheosis: An Amoral Guide to the Antinomianism of the Left-Hand Path in Satanic Context

Note: I honestly have no desire to discuss the weaklings of Satanism or idiots. They reflect such lack of understanding when they call Falcifer-Luciferi 13 a National Socialist organization when it does not have any political or religious form it is a political or religious form in and of itself. And is based on the original incarnation of the Order of Nine Angles and it's way of doing business up and until 2012. There are no leaders, no members, etc. Just a loose collective of individual groups who work independently based upon our ideas. We are guiding an African-American gentleman, a young lady and other individuals. There is no concept of race or issue with sexuality here. Primarily we are heretical and as a police as a nihilistic misanthrope love to offend and insult. If this is too edgy for you then so be it.

Antinomus

Falcifer- Luciferi 13

Satanism can not now nor ever be socially acceptable it always must be something that's hidden due to it's nature and also because it's primarily elitist – that is to say Satanists are the true elites. And Satanism is primarily a way of living which involves real ordeals, real trials, real tests and self-overcoming and self-excellence. A learning from adversity. Creating individuals who balanced, honorable, noble, fierce and defiant. Who champion genuine heresies such as National Socialism, Jihad, anarchism, or are anti-capitalist. Laws exist because if they didn't exist then the strong would consume the weak. A Satanist aims to always break the status quo and be public enemy number one. A Satanist is dangerous in real life not online and most certainly is not a laughable fraudulent clown such as Anton LaVey, Aleister Crowley who laughably was called the most wicked man in the world and who did not achieve true adeptship claiming to go beyond the abyss, pseudo-Luciferians and pseudo-Wamphyri such as E.A. Koetting or Michael Ford are also examples of such clowns and failures. They've all never gone past the stage of initiate because if they did they would have abandoned External Magick for Internal then Aeonic Magick. And such thing as law and order just exist to enslave the strong to protect the weaklings from their wrath.

Primarily what is “good” has been defined weakness, cowardice, timidity, pettiness, humility, knee bending, sycophancy and submission to authority. What's “good” is in essence evil – and evil means a going beyond due limits. There is no true moral code or way to follow because in essence a) Satanism is genuinely evil, heretical, off-limits and means exploring the dark side where no thought can restrict you and actions are done in a controlled manner to either aid the Sinister Dialectic of History which is axiomatic or b) to build personal character. Whether or not it hurts or affects someone else is irrelevant. However you and you alone accept the responsibility. You don't like other Satanic failures blame it on being possessed or cause someone told to too. Satanism involves consent you do all those actions because you want to do them and they either benefit personal development, human evolution or the Sinister Dialectic of History or Aeonics. So what is truly heretical and evil in today's society is nobility, strength, power and honor. Discipline and loyalty as well as fanatic commitment to the Sinister Dialectic of History. You can if you wish after a certain point exist outside of time and not aid any causal form. However, in the beginning stages you should seek to be evil until at which point in time either by exeatic baleful living or by following the Septenary System you become aware via patheismathos or personal suffering of the futility of any form in the cosmic scale of anythings. However, if you prefer a more humane way of self-development then choose something other than Satanism and leave it to the real Satanists. For all other paths are pseudo-Satanism and offer neither adeptship nor spiritual enlightenment. The true answer is within yourself – the kingdom of “God” is within. A knowledge of and union with your shadow self and a going beyond due limits. Knowing the darkness within and without. Going beyond opposites.

If there is any such thing as a law or code in Satanism it's nobility. An acknowledgement but not acceptance of off-limits heretical ideas which you are by nature opposed to because you are socially engineered to be so. Not because you have actually understood them or why. Courageousness – a Satanist would rather die than submit and is daring. Honesty with if not others themselves or at least a preference for the truth and telling the truth because they'd prefer the grim truth to lying to themselves. They'd rather slit their own throat than lie to themselves. They are self-honest but never engage in the decadence of self-pitying. And whether or not you can trust one is based on whether or not they can trust you – or if you've crossed them and either became a target of Satanic justice – the only law is own

law which is of personal judgement. Since quite frankly most people are unable to be trusted with anything. They are sly, self-serving and dishonorable cowards. And it is likewise foolish to play by rules someone else doesn't play by. However, a Satanist would never snitch or inform on others. Either as a tactic or strategy because primarily needing police to protect you means you are weak because if you weren't weak you'd enact your own justice or you'd learn from it and move on. An action which benefits you and your pursuit of self-excellence and self-overcoming is ultimately viewed as evil by society. You cannot be a strong-willed, independent, self-sufficient, proud and defiant individual who pursues self-actualization through enacting their will on others and society. Satanism aids human evolution and society as a whole. There is a particular exoteric political form associated with Satanism which is particularly heretical and off-limits today as well. They primarily exist in any form which is fascist or more accurately described based on the axiomatic view that this is the Western Aeon which is being distorted by the current of Zionism, Judaism, Marxist-Leninism, Communism and to a lesser but still very real degree Christianity. If you do not follow or accept these then you are evil and should be socially outcast or put in prison. Have your electronics seized and be monitored by intelligence agencies. Or that you are psychotic and sick and need to seek mental treatment. As well everything is primarily kept together by a system of debt-usury called capitalism. Where you are forced to go to school from a young age, go to college and get in debt – this of course is optional, work a respectable job usually this means a “9-5” where you work 40 hours a week spent mostly in a stale office environment and having to rely on cars, bus, trains, etc. For transportation soaking up even more valuable time and raise children to go on and do the same thing. Why that way of life so ideal to you all? Quite frankly you are raised to believe you will become famous or successful but most of us do not go on to be wealthy, important or famous. Instead we are stuck trapped in an environment that rewards mediocrity and punishes those who are special, empathetic, gifted and otherwise have a nature which is beneficial for society and humanity as a whole. In essence the whole world is headed in an anti-evolutionary direction that is unstoppable at this point. So to end it all in a Cosmic rage would be preferable. Yet in the end either way does not matter but it is clear for all to see you are primarily concerned with a patriarchal materialistic de-evolutionary “Might is Right” rule by the weak type society where whatever is weak, enervating or seen as authority is championed. And to oppose your sacred idols of Nazarene morality, Zionism, capitalism, and so on is to be not only genuinely heretical but a downright outlaw in today's society. Wherein even now writings or speech are restricted and seen as off-limits. You indeed promote hate and genocide yourself by championing Zionism. And if your myth of the Holocaust is indeed correct then why must it be made illegal in so many countries to question it? And why is it anti-Semitic to do so? To question the Armenian genocide isn't seen as illegal or heretical anywhere on Earth that I'm aware of. To champion and praise Joseph Stalin, Vladimir Lenin, Pol Pot, and other similar individuals isn't treated as “evil” when it is statistical fact that they murdered millions more for even stupider reasons – ie missing work or being late for work, being Buddhist, etc.

What's more there is a clear preference by society right now to prefer whatever is peaceful and in times of peace there is bred a type of soft, weak, degenerate and ultimately lazy type of individual who is gluttonous, entertained by brainless forms of entertainment consisting of flamboyant sexuality, and spends most of their time or day engaged in such meaningless tasks that they died before they ever lived. The cemeteries are full of people who died never daring to chase their dreams or make their most

desired experiences a reality. Instead they were held back by conventional morality or by envious mediocre individuals who wanted whatever position or gifts they were given out of spite or malice and they were ultimately too cowardly to take a stance and defy said individuals. They didn't have the gumption or natural leadership ability and self-sufficiency to one of the few daring and proud enough possessed with a self-confidence and belief in their own destiny. To dream a dream is to be held back by society full of as it were individuals too mediocre, undisciplined and lazy to act. Or perhaps too scared or cowardly.

Originally and this is a genuine heresy to state there was an inversion of how things were supposed to be. And our future was stolen from us by those who followed the "law of the jungle" which is an inaccurate description of Satanic ethos – Satanism creates a new type of breed but due to the nature of both Satanism consisting of natural born leaders who would enact brutal justice on even each other if it was required and necessary to further the Sinister Dialect of History or as a way or means to build character and achieve our own individual destiny. For no one's destiny should be held back by anyone that is in essence worse than death. By this inversion of the natural order of things and via the forms created by those elders we have the rotten degenerate and ultimately tyrannical slavery we all live in today. Whereby we are kept domesticated like cattle by mindless drivel and entertainment. And all developed a sense of pessimism and cynicism about the future. In essence becoming nihilists who prefer inaction to action because humanity has progressed to a state where it must truly want to go extinct. Yet I am labelled "nazi trash" for this. When in essence any other race right now regardless "objectively" if race exists or objectively if the lie of the Holocaust is a lie could and should be in power. Since whites have revealed themselves by this inaction to be primarily deserving of genocide and embracing it. Nor is it even worth it to die for your own race when they wouldn't even die for their own family, children or wife. That is because unlike us the real Satanists most people are ignoble weak cowards who seek to suppress us and our ideas. Even most National Socialists are ultimately too unintelligent to realize this. So why should Satanic adepts aid them? Either side ultimately gives us a sort of malice. We are hated by the far-left, far-right, our own countrymen or race – if your white and white only you are supposed to hate yourself and feel guilty – a guilt I never have nor never will feel my only ultimate regret is that we lost as Leon Degrelle said, and pseudo-Satanists and other armchair occultist types who laughable ask about this or that spirit or demon. Hallucinating or more likely as indeed unlike you all I am aware of the existence of both demons, spirits and the Dark Gods including Satan himself whose true nature is terrifying some cockeyed delusion that they can communicate with the devil or such. Which is what such charlatans or psychotics such as E.A. Koetting, Michael Ford, Anton LaVey, etc. Have done. Meanwhile at the same time espousing the erroneous belief that there is nothing praternatural.

Causal time is in essence a slow and steady decline to the inevitable dissolution of the Cosmos (solvet saeculum in favilla) but to accept defeat like everyone else has done is to accept cowardice and to become a pessimist and cynic. And ultimately on that path you become misanthropic and nihilistic which leads you to become a Sinister failure because you either end up suicidal, viciously violent and sporadic, or de-evolutionary. Where you mistrust and hate everyone regardless of who they are and if they enemy or friend. Or if you accept a more tolerant way of seeing things as neutral to everything a passive observer one who ultimately takes the path of inactivity but engages the thoughts and actions in neutrality becomes a Buddha. And via the eternal struggle of time there arises individuals who via

kampf or krieg offer a heretical dialectical approach which is antithetical and off limits to all except the rare breed the new evolutionary species. And that is ultimately what I have achieved and the rest of you ignore foolishly. Foolishly viewing the whole picture as a primarily intellectual thought-experiment which is also become too much for some. The babyish human vegetable engineered by the capitalist Magian-Nazarene system is a consumer of the most degenerate and disgusting pornography, abuses drugs, is patriarchal and opposes the feminine, is dishonorable and cowardly but most certainly always sly or clever but never violent, possessed of a lack of Satanic insight or wisdom – lacking a type of gnosis of darkness or geryne of Satan never knowing nor creating the Sinister Changeling known as the Baeldraca, existing still within causal time neither against it nor above it. Never seeking to conquest, explore, defy, fight, oppose, rebel or dream a dream that's beyond the scope of human comprehension. Never catching glimpses of their own destiny and where it may lead them. Never being aware of providence as a guide or impersonal fate and the unseen forces. Never imposing upon themselves a strict physical training program where they build an impressive physique and strength. Never running for hours on end until your legs want to collapse from under you. Never feeling sweat drop down their forehead with their heart pounding in their ears. Instead they prefer to hurl insults always anonymously or threats on such peripheral mediums as the internet. Well I am quite frankly tired of these posers, frauds and pretenders who have hijacked Satanism and ruined it like they ruin everything else they touch in a reverse midas touch where everything gets turned to mediocre trash or edgy delusional psychotic horseshit based on blood and guts and nothing else. And what's more none of these individuals ever commit any real acts of terror or violence they merely write about them which while heretical they shouldn't be seen as rapists, pedophiles, terrorists or murderers. It's just writings which were designed with a real purpose not to incite as such but if a weak-willed individual read something and went out and killed someone for Satan then ultimately it was a "good" thing. Or it most certainly doesn't matter in the grand scheme of things when the government via police kill innocent people day in day out and via wars and other conflicts have killed millions more. By forcing the rule of democracy and freedom on people who do not want to be controlled by Zionism like the rest of this world. Or the degeneracy and impersonalism of the West. Most Satanists are a higher calibre and possessed of a higher intellect or higher taste. Trust me when I say this is purely a temporal thing for me which will be ending soon as I've gained insight – insight that people are primarily too lazy and unintelligent to act. There is absolutely needed a re-evaluation of morals needed because this is obviously not working for humanity as a whole. And no longer do Satanists provide the balance needed for society. Instead they have become a posturing pseudo brand of Magian trash. This is where the Luciferian and ultimately Wamphyric-Luciferian is needed.

The ultimate "problem" if there was one is that slave morality not by strength – ie impersonal or personal violence done for some ideology or religious or political form that fits the ethos of the Western Aeon such as a non-racist ethical (or ultimately unethical at this point) totalitarian fascist dictatorship, National Socialism, Non-Racist Ethical National-Socialism, anarchism or subverted Magian forms such as Racialist Totalitarian Communism. In essence any form far-left, far-right, anarchic or religious such as extremist Aryanized Islam but also Aryanized Nazarene, Militant Hinduism, Left-hand path Sufism, Hermeticism, or anarchic optimistic nihilism has become useful in getting rid of this valueless useless society. However, in actual fact due to how things are further dialectic is no longer necessary because we've in essence engineered your downfall by said methods. Now we just as terrorists sit back and

watch the explosions. And all the imitators, liars, antifascists, journalists – who are neither good nor bad just document the story in a way favoring the masses or for entertainment not realizing what they are undermining but ultimately it's irrelevant as it's too late, pretenders and frauds are going to disappear back into the nothingness they came from. And they will no longer be relevant because only a new breed of human is going to survive the resulting chaos. And ultimately even most of us will die but defiantly and guaranteed ultimately some sort of Valhalla as spoken about in Aryan myth for millennia for those who die in battle. Having been clinically dead I can tell you there is nothing on the other side for those cowards who by their own hand take their life. Self pity is weakness and weakness is decadence. No one cares for your self-pitying depression which nowadays everyone has a sort of nihilistic bleakness even Satanic adepts.

What's seen as good by society should be seen not as what's good for the community or masses. It should be seen as what's good for the few who dare to dream. Men of a noble and higher culture with a sense of honor and responsibility towards the human race. Which up until now the history of humanity was written by the Aryan now it is written by literally everyone else. And the Aryan champions this they are so glad to be culled off. And I say good riddance to them the sooner we disappear the better ultimately because we are a sickly slave race ultimately and we love being slaves. We must to be so cowardly and unable to defend ourselves from any other race. Islam or some other form of Nationalism will hopefully arise and spell the end for the Magian. Since the days of the Aryan race are over. We still have another 200 or 300 years left before the Galactic Imperium but our dreams, our future and everything else was stolen from us by the Magian via subversion. And you worship them all.

The weak have gained power by corrupting the strong into believing that they are slaves because the qualities of the weak which are based on the Bible so ultimately originating in the New Testament from the Old Testament hence proving there was a Judean distortion which is illegal to point out because it would spell their end. And if someone is reading this at all just know that if that point in time where via some ritual (the dream of the cross eclipsing the sun – perhaps a vision of what was to come) or other underhanded means the Roman council decided on what the state religion would and included all but not of the Gnostic texts would also ultimately lead to fascism via the form of anti-cosmic Satanism. And they did this by primarily saying that to be humble is a virtue. To turn the other cheek is a virtue. Yet the Magian themselves such as Anton LaVey don't hold this point of view they say as it were "smash them on the other cheek" – which is stolen from "Might Is Right" by Ragnar Redbeard who was an Irish or Celtic anarchist who was I believe an abusive alcoholic who got shot. Ultimately a loser unlike Nietzsche. And they did not arrive at the same conclusion as erroneously is believed. In fact I believe the original authors of the O9A MSS knew all this. Or arrived at this conclusion. They started off as beginners but ended up as Masters. And they gave the secret of Mastery first but it should come last. Since it can in essence lead to where most all of you have arrived as Magian-bred trash. Not only that but charity – giving all your hard earned money to loser nobodies who refuse to get a job and ultimately use said money for drugs or alcohol or other worthless things and pity – a disease which makes sick the strong. Ultimately, I survived poverty so what doesn't kill you will make you stronger. And whether or not you survive is irrelevant cosmically but important when you are a minority racially or otherwise. And racially as a whole whites are a minority not other races. I was a minority in Southeast Asia but did I indeed complain? No I adapted to the culture and was welcomed for it. Unlike most Americans who were loud and vulgar and indeed so were Brits unfortunately. In fact they placed the plight of those who are naturally slaves or were and are slaves and therefore have a lack of power and in this lack of power beg, plead, and otherwise try to get the strong or master to have mercy upon

them or spare them from death on the master or strong. And when the strong had this placed upon them they became enslaved and via being enslaved first the white race declined and then the human race declined and will decline until another race such as Asians, Slavics or Arabs rise up and do something about this situation. So ultimately it is only due to a lack of understanding not only of Aeonics but history and morality that you all deny me. Via realizing all this and denying enslavement I have become a master for I would rather die and to die defiant is a death befitting the Satanist.

They did all this at first via Christianity or Nazareny and then through such systems as democracy, democratic socialism, cultural marxism, etc. And ultimately the capitalist system itself while possessing a sort of “Might is Right” ethos is their lifeblood. They became masters not because they were strong and powerful but by banking, entertainment, academia, democracy, “freedom” which they won’t give us now nor never nor will they admit they hate us, religious forms such as Nazareny, etc. While Islam is patriarchal and the Aryan as never been misogynistic or homophobic as you can tell from such societies as Sparta, Ancient Greece and Rome – just having sort of laughably here a system of going “prison gay” of which I think mostly queers are degenerate. Male queers primarily as who really cares what women do ultimately? They nurture and love us and give birth to conquerors. Why mistreat them? In either case they won’t admit what they did now or never but the answers are there for those so curious it can be found in the Antichrist by Fredrich Nietzsche. By giving you power I am taking the power away from the Magian. And I am whatever you say I must be for you say it. I must be Nazi trash when I care so much for humanity yet it does not matter that I care. This is more than mere Satanism do you not understand? Will you not all wake up? Will you just all shut the hell up if not? Either sit in the corner and be quiet or stand up. Start at least writing. Inspire actions in others those who are noble, honourable and strong. Or instead of that go out and do something yourself. Champion Islam, champion National Socialism, champion anarchism, and at this point even champion Communism. Once you understand the hidden parts of all this any form is useful.

Race is ultimately irrelevant but a special people objectively is the Aryan and noted individuals such as Natives, Asians – both southeast and east, and Arabs were given that title. And blacks and Africans were treated not as slaves or hunted down like they were by the KKK. The far-right is ultimately consisting of bullshit individuals who are concerned with following Jewish forms engineered as a racial cancer to poison and sicken us. Do you not all get it? What I am doing? What risks I am taking? No you can’t get it because you don’t want to listen. Or that you realized long ago that it is pointless. Yet the truth is ultimately more tragic than you’ll ever realize. And it’s something realized by adepts I believe long ago that Satanism which was meant as adversity to God’s chosen ie Jews has been hijacked by them too and by those who are primarily worshipping not incorrectly a form that does not want obedience and are consumed by their dark side. So to act against time is to act against the Magian knowing full well that such action is futile not only Cosmic but will result in defeat until that time when as spoken about in our chants Vindex descends to earth and establishes upon this Earth a new order which leads to Galactic Imperium and yes even that civilization will fall down leading to an eventual dissolution of the Cosmos back into primordial chaos which will either manifest things again or be gone forever. I’d prefer you believe it’s gone forever because that would mean you know permanently that the Aryan race is doomed since you all delight in that. It’s ultimately better that you think you’ve won because if you knew the truth that Vindex is not a human but a Dark God whose Vedic archetype is Kalki and was partially or fully manifest in Adolf Hitler you’d consider me all just psychotic. No matter what. So I’d prefer to be seen as crazy because it keeps you all distracted. Ultimately I am just writing right now but be careful because some people are intelligent enough and aware enough they can write but via the acausal published or unpublished enact change Aeonically or otherwise. This is real magick. And you cannot ban the word the logos for this is a dark logos. You foolish sly Magian. I do dare to defy you now and forever and if that means a prison sentence then you

can come get me for I will not cower before you now or ever. Not ever. You understand? I stand proud and defiant before the annals of history and time immemorial as a man who stood up. Who was lied about and who was accused in a smear campaign of being this or that. But in essence it will fail because the truth comes out always and when it does you will look like the worse sort of villain. And no this is not directed at the Tempel ov Blood. Sutter may have been a lot of things but he wasn't overall harmful to anyone. He became I think on some level brainwashed by Communism or traumatized by prison so co-operated and due to lack of funds perhaps got greedy. And he did snitch on me twice. I'm going to leave it but I know for 100%. And I sort of can guess where he's hiding and who he's pretending to be now. However, I forgive you but if you snitch on me again I'll find you one day and end you. And nothing will hold up in court anyways. I outlined everything here in a non-violent non-racist way not promoting genocide of anyone nor terrorism. For ultimately you'd have to argue points you can't argue. For one I said whites deserved to die and go extinct, for two I said it's not Jews personally it's what some Jews believe Zionism and Judaism not all of them do and those who don't are allies but seen as race traitors by Jews, for three I am married to a Vietnamese woman and had a mistress who was half-native and am partially native myself but primarily white I'm white enough there's no point to argue it very minor percentage just enough that regardless I'd be considered Aryan by the Third Reich which is actually irrelevant because they would have eventually realized the origins of the white race were perhaps from a non-white race such as in Tibet where they were exploring or more than likely ancient India. However, it's entirely possible such a race was originally white but was invaded by barbarians from Africa and became non-white and such a thing is in actual fact happening to Asia and already happened to the West. Asia is going to be the new India if so a disgusting pit of garbage and human stool everywhere.

Ultimately, forcing everybody to accept egalitarianism was a clever, sly ploy by the weaker men and a tactic used by the weak regardless of race – ie the poor use it by begging for food and supplies and the Magian enslaved African-Americans yet they engineered via Communist individuals such as Martin Luther King who was an adulterer not perfect very flawed individual the morality of the slave upon the Americans who would have realize in post-WWII or the First Zionist War that the Third Reich should have won and eventually perhaps because of the balance provided by Nazareny or women or by empiricism which is the Faustian way – I primarily think we should make decisions based on logic from an impersonal statement based upon evidence but have to act in a way which is also like Dionysius (one of the real names of Satan the other is Apollo – in fact Satan is Dionysius and Lucifer is Apollo and together in the same individual would be an individual such as Caligula a mad Roman Emperor who despite being a degenerate queer also enjoyed numerous women, orgies, wine and such but ultimately didn't conquer Albion which was perhaps protected or following the tradition of the Dark Goddess Baphomet but union of these two figures the Matriarchal figure and the Satanic/Luciferian individual and keep in mind because Satan is both dark and light he is both Satan and Lucifer it is a Magian distortion that they be separated but also a hidden secret of the adepts). In other words they are balanced and primarily the role of the Rounwytha is to keep them balanced. And the combination of such is chaos or non-being the acausal which leads to the archetype of chaos dragon or Tiamat which is mother of the Dark Gods. Yahweh being ultimately the Demiurge because he is the Chosen of God's people. And Satan descended in the Garden of Eve and seduced Eve who gave birth to Cain or Qayin be Samael who became the first murderer and who was cursed to walk in Undeath as punishment. And via his bloodline was given the task to presented as Falxifer the individual who would manifest Satan's rage in a personal form Vindex and avenge what was taken. And ultimately the entire Aryan race is descended from Cain or Qayin by spiritual bloodline. And that is why the Tempel ov Blood head not Sutter who remains in hiding and snitching is scared to unleash a certain individual upon us all. One who may be enslaved himself as I recognize and have recognized and whom Satanic adepts have chosen. And also Cain has a sister via Lilith who is Darkat and Sumerian not ultimately

Magian but indeed I believe on some level the Magian based their mythos or are descended from the Sumerian or Canaanites but also these people used to sacrifice Magian babies to Moloch. And Lilith is anti-life or represented by the woman who strangles her baby at birth with the umbilical cord. Heterosexual and gives birth to the spawn of chaos – Wamphyri or female succubus (not male incubus they are not both the same this is a queer distortion). Baphomet is Sapphic or perhaps Bisexual. Either of these figures could be presented as the mistress of Satan but Satan is primarily as the Mormons intuited about their illusionary God polygamous. He has numerous lovers. And Baphomet is as such too. However, as a Vampress she preys upon the hubris males who not necessarily are sad and lonely but have the patriarchal ethos. Ultimately a balance of both is needed for to be effeminate as a man is to fail but to be cruel and unjust is to fail. A good example to follow is perhaps Richard Moulton or David Myatt on how to treat women. As a gentleman primarily but also aware that most women will fuck you over in life and treat you like dirt. Even if you protect them. So stay cold a bit aloof from them. Don't have love for bloodsucking succubus. Some of us anyways cannot date or such we have too important of a mission to achieve. And by our psychotic nature scared off all but the most loyal type women. It doesn't mean you are not special or important it means in essence you are step above society. Even those who are conventionally beautiful struggle with relationships that's how alienated society has become from one another. Promiscuousness and feminism have ultimately ruined things. As whilst the rare few engage in polygamy and get away with it the majority get nothing or little. Yet that is the essence of evolution it prefers the man who gets plenty they have more resources to survive. Such as myself whose kept two mistresses and a wife and been a devoted lover to all three. And all were aware of each other. One mistress was particularly unfaithful but ultimately I did the same thing yet if she hadn't I would have just been with her.

An understanding however regardless of my ramblings is needed. While I am not perfect by any stretch I know what needs to be done. And ultimately I can't say it doesn't involve violence or terror. It shouldn't it should be peaceful but they won't show us any quarter so why should we show them quarter? Mercy makes sick the strong! So based on this we have a new Code of the New Aeon – for all individuals who are Falcifer-Luciferi 13 to follow. This is not a moral code or ethical code. It is a way for you to defy society and subvert the Magian. It is acausal, Aeonian and real magick which cannot ever be made illegal.

Code of the New Aeon

Until at which point the Tempel ov Blood physically attacks one of us or does something else such as informs on us the police we will not retaliate but when we want and it should not be otherwise allowed to criticize and offer insight. Ultimately you have the ethos you cannot be questioned or denied or you will enact vengeance or power. Whilst this is ultimately Aryan it comes from a point of supporting a Magian individual. Until which point it is clear Sutter is no longer involved and that you will not do harm to our members or our person then we will not trust you but out of respect as so far individual members have not do so we will not enact Satanic justice upon you. Which never comes from a place of malice but is done impersonally without the support of the police and does involve culling ultimately whereupon you will be given a first and second chance. And then if you fail – which most do you will be taken care. Ultimately via the Cult of Santa Muerte. Who may or may not become your replacement.

As you were supposed to become a dangerous Aryan cult but instead you became a honeypot promoting any sort of extremism for the sake of extremism. Unlike Myatt who did it disrupt the Magian. Hence Myatt was more Satanic and ultimately hoo. Myatt will always be Grandmaster because he invented all this and discovered or was led to discover the acausal perhaps by a Satanic Mistress. However, most all of the O9A came from sources which are not illegal yet but will be because they will be considered "hate speech". So Savitri Devi, Friedrich Nietzsche, Oswald Spengler, etc will all be banned and outlawed. Even their non-political ideas. Anything connected to them will be erased from history. Nietzsche not erroneously was not anti-Semitic because for one Semites are both Arabs and Jews and Jews will not allow Arabs the right to co-exist. Nietzsche was anti-Jewish in essence but did not hate Jews for what they did. However, they took his ideas and applied them. As well as Darwin who in essence proved there was no God. Ultimately Darwinism has been hijacked and distorted and the patriarchal ethos dominates that is why the feminine is presented. However, I am primarily presencing the ethical non-effeminate way that is balanced. As I know what it is like to be preyed upon but it did not kill me it made me stronger and when I came back from what others had did I became enraged and enacted Satanic justice upon them. Satanic justice can ultimately due to it's nature self-overcoming is a form of revenge. Inaction is not Aryan. As someone told me once swing first ask questions last and I learnt in prison violence is honorable and noble. The weak don't want you to know this because you'll destroy them. And if you go in any fight willing to die and death is peaceful non-existence or Valhalla for combat any form but not for those who don't fight. They are cursed to die a coward's death and die twice.

But why would I want to destroy something I helped build? Because I didn't ultimately I felt left out so much and while Sutter was a nice fatherly figure and not a real pedophile – Fleming is a real pedophile and ultimately I can't support paedophilia. However, being a victim of sexual abuse makes you weak because many go on to molest children themselves or become sexual deviants. Or queers etc. So it's something you should keep to yourself if you are a molester or were molested. It's not your fault most certainly but women and children are inherently weak and men who get raped are weaker than both ultimately and on some level deserving of it. Why? Because they should rather die than take it up the ass like a degenerate queer. Whose flamboyant parades and rainbow flags has made a mockery of both National Socialism, fascism via the ultimately queer Mediterranean types ie Romans and Greeks, and Satanism. Ultimately, the Vedic society was women had arranged marriages and were protected by men never raped. And Sutter didn't ultimately support rape he did tell others sometimes to slap their spouse which I did a few times so I'm ultimately guilty of. In any situation children or women shouldn't be slapped around because it makes them scared and when they are scared they'll resent you and children especially will grow up and plot your demise. There's nothing wrong with a young man taking an older woman as a lover but there's ultimately something inherently disgusting about the reverse. And whatever is naturally disgusting or revolting to humans is anti-evolutionary. So either you learn from your mistakes and build character or you get culled. No other options. And yes unlike ToB individuals have culled that we aren't officially associated with and for lesser ultimately. Choosing a victim whom no one missed. Ultimately this can't be investigated since I wasn't involved and it was ultimately perhaps a legend or fable but there is something really genuinely evil about it all. I won't name names because the work is hidden now. But it's there. To be an adept you used to in a historical context have to cull.

Ultimately abusing women, children, drugs or alcohol is anti-evolutionary and the ToB sort of championed all of these so it's not Magian because I don't believe ultimately Jews are inherently abusive perhaps because of how they were treated they indeed are getting a karmic revenge against us but it's just anti-evolutionary and despicable behaviour. Ultimately promiscuity while not conducive to monogamy is conducive to evolution because it ensures many children are born and a man having many lovers means he can father more children like the SS were told to do. The original Waffen SS. Historically one just need study Leon Degrelle to know either the Holocaust happened on a smaller level then ceased as they realized how cruel and inhumane it was and deportation was planned or non-effective (a ship was scuttled sending Jews to Israel at one point and the king of Madagascar declined to have them there) or most unlikely due to scratches and blue dye on the walls in the chambers themselves which until a neutral third party can test for accuracy cannot be counted as 100% real but real evidence enough. As if it was a murder scene it'd be admissible in court as evidence and they'd be found guilty. And court is very impersonal and impartial despite what the media says. And doesn't naturally favor women. Sometimes favors men unjustly.

And so all of these ethos were taken in consideration in writing these. And also the inherent nature of honor. The fact that honor between comrades is not just a warm and fuzzy feeling but bonding. And it is not "queer" or weak to have honor. It's easy to be a liar or manipulative and then blame it all on a complex psy op etc. Fanaticism and extremism are not Aryan traits we just go into berserker mode sometimes. But an Aryan does not say and he does so in a fair just way. However, ultimately in a war there must be some dirty underhanded tactics you must take a firm stand. Such that if you do an insight role as a Communist that you are there to disrupt Communism either promoting the racist form such as Juche, anti-Zionist Stalinism, or National Anarchism ie rural small communities of all whites or folk. And due to our empathy with Nature via living in such rural areas and having an awareness of seasons and also how seasons relate to Aeons which is the scale of the Rounwytha trained in our ways that one can champion ecofascism or a racialized form or Nationalist form of say the Green Party focused on both animal rights, stopping deforestation and preserving the white race's homelands. And if non-white can continue especially if black to champion Black Lives Matter, anything anti-police, but nothing outlaw or criminal instead follow the example of honor and respectability be intelligent so that others will not unfairly hate you for no reason, put an end to gangs and gang violence unless you are militarized into cells of 2-3 people willing to fight for the African ethnostate which the Third Reich would have given you and so would have George Lincoln Rockwell then you are failing your own race. National Socialists opposed the KKK. And on the buses in war they made the blacks sit behind the National Socialists. Don't primarily be offended by words. No words are needed censor yourself.

And now primarily my website goes offline now as it served it's purpose. Really to make a code of honour is not needed nor necessary. Everyone follows their own individual judgment but acts rationally coolly out of impersonal justice. Ultimately there's hell coming for me and there'll be hell to pay for writing what I have wrote. But I have to take a stand and be bold be courageous. This is for the good of humanity and if I die in the process or go to prison I must. I just wanted to save the world.

Ach, es entschwindet mit tauigem Flügel

Mir auf den wiegenden Wellen die Zeit.

Morgen entschwinde mit schimmerndem Flügel

Wieder wie gestern und heute die Zeit,

Bis ich auf höherem strahlendem Flügel

Selber entschwinde der wechselnden Zeit.

Ultimately the O9A has Aeonic goals and the ToB's goals were anti-evolutionary and Magian. Perhaps when Lord Karnac left it became so. However, I think on some level it's due to attracting sadists. While sadism and predation is glorious it ends up creating individuals like Ian Brady. Cold as steel predators but those who harm children who are still developing and growing. And this creates individuals who either go on to abuse themselves or come back for revenge. It creates people full of hate and anger. However, those few people can go on to be great individuals. Because all that is great is built upon sorrow. So I was abused mostly my whole life by others because they didn't want me to take revenge and I could have but I didn't. However, as I grew in power they grew angry and tried to say revenge is bad and authority is good etc. So ultimately revenge is an action by the strong against the weak but it is also decadent insofar as it can lead to both sides being destroyed. Yet to argue against revenge on either end is to be weak. Because to fear death keeps you dead and a coward dies twice. Ultimately have death before dishonor. And one strong action stands the test of time. One act of violent terror done by one or two individuals at maximum three will stand the test of time. And be ultimately a good thing where they will be heralded as martyrs for what they did. As they did something that can only be considered an action of bravery and self-sacrifice. Ultimately I could never commit an act of terror such as a shooting – which is stupid to begin with and wasteful nor would I commit a murder as such. Culling is different. But it is hands on as well but not in this context. It can't be explained anymore. It's historical academic etc.

I will keep my mouth shut but I suggest ultimately if you want to take action that you either get up close and personal with a .22 caliber pistol or better yet .45 aim for the chest and then head two to the chest and one to the head but primarily center of mass in the chest. Or you make a non-metal PVC explosive device and take out targets with it. Or what a smart man would do cut their break lines or have them fall off a boat etc. In other words they have an accident that they can't pin on you. And whatever they disprove in court once they can't keep coming for. And once an investigation is closed it ultimately won't get reopened for years and goes cold. There's a timeframe on how long it can be kept open. They are always ignoring missing people reports and such. And you get more time for a break and enter in some cases than a murder. A murder can get you 13 years sometimes and before it goes to trial could take 2-3 years plenty of time to get out of the country or whatever you had to do. It's only if your blocked by Interpol you can't travel. But the French Foreign Legion like I suspect Anton Long joined isn't a place for the wanted man anymore or suspected wanted. Trust me I was there briefly.

Either case I hope you enjoyed reading this and understand where I am coming from. This is primarily a war and in a war we need to take action. Before you follow this code you must state aloud before the banner of the National Socialist flag with a black cloth altar. Sharpened survival or combat knife and bust or copy of Mein Kampf. Wearing a military uniform that is Typhon Camo or Dark Camo with or

without a balaclava. Without because you will not be a coward. Take the knife slit the left hand and pour the blood into a cup of port wine. Burn the incense of Mars and place the palm on a printed medieval contract sealing yourself to Satan. Burn it in the fire of a black candle then proceed to deface or burn holy hosts after urinating on them. And declare as such:

Creed of the New Aeon:

I acknowledge Satan, the god of the raging Chaos as my King and Father, and submit myself to his only law-which is The Heretical Sinister Law of Justice based on impersonal judgement but cool rational thinking keeping in mind the full responsibilities and repercussions if said thing results in consequences. I accept if I do evil and claim it as an act on behalf of my organization it will be taken as harm done not an act of sacrifice and I will be culled if I inform to the police or lie. And I would never claim to be Falcifer-Luciferi 13 to anyone not in private or public because we do not have members and do not have a leader. It is the writings of a collective which are based on an ancient tradition that must survive.

I believe in the truth which is beyond all forms, and in one word that will destroy the lie: that word is the *logos*. Which was distorted by Jesus the Nazarene who is the false Messiah and false prophet he was sent by those who hate the noble Aryan race to destroy without sword but taught us combat is villainous. He taught us the lie of Hell which is a myth and in combat we shall seek Valhalla. For the Dark Gods are eternal and ancient and have lived as many forms. From Vedic to Hellenic. And now the Western. Satan is shapeless chaos which takes any form which espouses evolution. He is unbridled pleasure and violence. Tempered in the light of Lucifer he is empiricism, wisdom, and gnosis. Combined with Lucifer and with his Mistress Baphomet he gave birth to the Aryan fire-born race in contrast to the Magian clay-born who are of the Demiurge. And the acausal energy when it dominates is evolutionarily by the process of it flowing into the consciousness from the unconscious shadow self which is the link to Satan and our true self. Once we find our true self then we go beyond for otherwise we are still human. And to be human not Wamphyri is to fail. But to be Wamphyri-Luciferi (Noctulian) is to be as a God.

I believe in the battle and the cause, which is the bringing forth of the dark aeon, and I am therefore prepared to sacrifice my enemies and if necessary my own blood to hasten the return of the Dark Gods. We declare Noctulian Jihad on the Magian-Nazarene not as individuals but as an ideology. And we will use acausal means to do so which no government can make illegal. For forms are forms but to be formless is become one with Satan and that is how we survive into the afterlife. To go beyond Satan and beyond due limits is to become a God. To leave earth and causal not upon death but whilst living as a spiritual master. The Spiritual Master of Falcifer-Luciferi 13 is Algar Black.

I believe in courage, strength and power and therefore despise pity, mercy and cowardliness, which are the shackles of the old aeon that hold the weak enslaved.

I believe in discipline and loyalty. For to achieve the goal which is Chaos, order must first reign in our own ranks.

I reject Yeshua the Deceiver and all his works. And heretically stand defiant before history. I declare (raise the knife in the air in Hitlerian salute and drink some of the wine) that all that is weak is de-

evolutionary and all that is de-evolutionary is weak. So I hereby reject all lies and illusions. And give praise to our Dark God Vindex. Agios o Vindex! Vindex est venturas! (Burn incense perfume of Saturn (CHAOS) or anoint yourself with civit oil)

Now take the Quartz crystal in your hands and vibrate Agios o Baphomet 3-9 times preferably 9. Declare "Oh mother of bloodshed and dark nights of evil I declare my eternal love and devotion to you. For you are she who has no form and the essence of formlessness is sacrifice upon the blood stained altar of time)

I believe in and support impersonal violence done after personal judgment with rational intent suppressing whatever mercy I need to suppress for I realize these are not innocent victims but enemy combatants or tyrants. In order to protect my honour if someone does me wrong if I cannot reason with them I will enact Satanic justice. If I cannot enact Satanic justice I will hold a grudge until I can. I will be swift and ruthless but cold and calculated. I will not allow myself or others to be abused like a coward without honor. It is the duty of the strong to protect the weak from the sick or weakest links of evolution. For to prey on your own women, children, or race who have done you no harm nor done no harm to women or children is degeneracy.

If someone abuses women, children or drugs they are no longer of our kind and are exiled. We cannot forgive or forget.

I Praise the Dark Lord with all my heart and Soul and wait for the final war, victory and triumph that shall come.

Finish the wine and shout Hail Victory!

Note: the ritual is ultimately unnecessary but the knife and military uniform is. If you do this publicly by nature of it being a secret task you need to wear a balaclava. Not a skull mask as this has been subverted by the enemy.

The Antinomian Law of the New Aeon for Aryans, Satanists, Dreccians, Balobians & Islamicists

Disguise yourself among your enemy as a bloodthirsty werewolf disguised as a sheep.

One single strong act of violence and terror is worth all the words ever written.

Lucifer is our ideal so conquer, destroy and create. And wherever you may go sow the seeds of wisdom, revolution and knowledge.

A society is formed when those who cannot protect themselves from the might of the strong sow the lie of democracy. Therefore always seek to heretically defy proudly and stand tall with your shoulders firm against the mob. When they vex you curse them when they curse you kill them.

The grim truth seeks free the strong but culls the weak. For weakness is illusion and illusion is freedom.

Lie if you must but slit your own throat before you lie to yourself.

Only the law of individual will exists nothing else. Rage against the machine and make war on all who oppose your destiny. It is your rite to take the throne of skulls upon the battlefield of history. And take for your bride Baphomet and take for your concubines any. For only a flood of blood, limbs and severed heads will end the subhuman moaning for mercy and pity. Pity which they do not get in their own Bible and mercy which is not shown. Arise Arise Arise.

The elite can never degrade itself and sink to the level of the unworthy scum, democracy must therefore always be fought by all and any means necessary.

Only by terror does the elminority make itself heard. Apotheosis: An Amoral Guide to the Antinomianism of the Left-Hand Path in Satanic Context

Note: I honestly have no desire to discuss the weaklings of Satanism or idiots. They reflect such lack of understanding when they call Falcifer-Luciferi 13 a National Socialist organization when it does not have any political or religious form it is a political or religious form in and of itself. And is based on the original incarnation of the Order of Nine Angles and it's way of doing business up and until 2012. There are no leaders, no members, etc. Just a loose collective of individual groups who work independently based upon our ideas. We are guiding an African-American gentleman, a young lady and other individuals. There is no concept of race or issue with sexuality here. Primarily we are heretical and as a policy as a nihilistic misanthrope love to offend and insult. If this is too edgy for you then so be it.

Antinomus

Satanism can not now nor ever be socially acceptable it always must be something that's hidden due to it's nature and also because it's primarily elitist – that is to say Satanists are the true elites. And Satanism is primarily a way of living which involves real ordeals, real trials, real tests and self-overcoming and self-excellence. A learning from adversity. Creating individuals who balanced, honorable, noble, fierce and defiant. Who champion genuine heresies such as National Socialism, Jihad, anarchism, or are anti-capitalist. Laws exist because if they didn't exist then the strong would consume the weak. A Satanist aims to always break the status quo and be public enemy number one. A Satanist is dangerous in real life not online and most certainly is not a laughable fraudulent clown such as Anton LaVey, Aleister Crowley who laughably was called the most wicked man in the world and who did not achieve true adeptship claiming to go beyond the abyss, pseudo-Luciferians and pseudo-Wamphyri such as E.A. Koetting or Michael Ford are also examples of such clowns and failures. They've all never gone past the stage of initiate because if they did they would have abandoned External Magick for Internal then Aeonic Magick. And such thing as law and order just exist to enslave the strong to protect the weaklings from their wrath.

what is useful has always been defined as good, therefore usefulness is goodness as a value. He writes that in the prehistoric state "the value or non-value of an action was derived from its consequences"[1] but that ultimately "[t]here are no moral phenomena at all, only moral interpretations of phenomena." [2] For strong-willed men, the "good" is the noble, strong, and powerful, while the "bad" is the weak, cowardly, timid, and petty.

Primarily what is "good" has been defined weakness, cowardice, timidity, pettiness, humility, knee bending, sycophancy and submission to authority. What's "good" is in essence evil – and evil means a going beyond due limits. There is no true moral code or way to follow because in essence a) Satanism is genuinely evil, heretical, off-limits and means exploring the dark side where no thought can restrict you and actions are done in a controlled manner to either aid the Sinister Dialectic of History which is axiomatic or b) to build personal character. Whether or not it hurts or affects someone else is irrelevant. However you and you alone accept the responsibility. You don't like other Satanic failures blame it on being possessed or cause someone told to too. Satanism involves consent you do all those actions because you want to do them and they either benefit personal development, human evolution or the Sinister Dialectic of History or Aeonics. So what is truly heretical and evil in today's society is nobility, strength, power and honor. Discipline and loyalty as well as fanatic commitment to the Sinister Dialectic of History. You can if you wish after a certain point exist outside of time and not aid any causal form. However, in the beginning stages you should seek to be evil until at which point in time either by exeatic baleful living or by following the Septenary System you become aware via patheismathos or personal suffering of the futility of any form in the cosmic scale of anythings. However, if you prefer a more humane way of self-development then choose something other than Satanism and leave it to the real Satanists. For all other paths are pseudo-Satanism and offer neither adeptship nor spiritual enlightenment. The true answer is within yourself – the kingdom of "God" is within. A knowledge of and union with your shadow self and a going beyond due limits. Knowing the darkness within and without. Going beyond opposites.

If there is any such thing as a law or code in Satanism it's nobility. An acknowledgement but not acceptance of off-limits heretical ideas which you are by nature opposed to because you are socially

engineered to be so. Not because you have actually understood them or why. Courageousness – a Satanist would rather die than submit and is daring. Honesty with if not others themselves or at least a preference for the truth and telling the truth because they'd prefer the grim truth to lying to themselves. They'd rather slit their own throat than lie to themselves. They are self-honest but never engage in the decadence of self-pitying. And whether or not you can trust one is based on whether or not they can trust you – or if you've crossed them and either became a target of Satanic justice – the only law is own law which is of personal judgement. Since quite frankly most people are unable to be trusted with anything. They are sly, self-serving and dishonorable cowards. And it is likewise foolish to play by rules someone else doesn't play by. However, a Satanist would never snitch or inform on others. Either as a tactic or strategy because primarily needing police to protect you means you are weak because if you weren't weak you'd enact your own justice or you'd learn from it and move on. An action which benefits you and your pursuit of self-excellence and self-overcoming is ultimately viewed as evil by society. You cannot be a strong-willed, independent, self-sufficient, proud and defiant individual who pursues self-actualization through enacting their will on others and society. Satanism aids human evolution and society as a whole. There is a particular exoteric political form associated with Satanism which is particularly heretical and off-limits today as well. They primarily exist in any form which is fascist or more accurately described based on the axiomatic view that this is the Western Aeon which is being distorted by the current of Zionism, Judaism, Marxist-Leninism, Communism and to a lesser but still very real degree Christianity. If you do not follow or accept these then you are evil and should be socially outcast or put in prison. Have your electronics seized and be monitored by intelligence agencies. Or that you are psychotic and sick and need to seek mental treatment. As well everything is primarily kept together by a system of debt-usury called capitalism. Where you are forced to go to school from a young age, go to college and get in debt – this of course is optional, work a respectable job usually this means a “9-5” where you work 40 hours a week spent mostly in a stale office environment and having to rely on cars, bus, trains, etc. For transportation soaking up even more valuable time and raise children to go on and do the same thing. Why that way of life so ideal to you all? Quite frankly you are raised to believe you will become famous or successful but most of us do not go on to be wealthy, important or famous. Instead we are stuck trapped in an environment that rewards mediocrity and punishes those who are special, empathetic, gifted and otherwise have a nature which is beneficial for society and humanity as a whole. In essence the whole world is headed in an anti-evolutionary direction that is unstoppable at this point. So to end it all in a Cosmic rage would be preferable. Yet in the end either way does not matter but it is clear for all to see you are primarily concerned with a patriarchal materialistic de-evolutionary “Might is Right” rule by the weak type society where whatever is weak, enervating or seen as authority is championed. And to oppose your sacred idols of Nazarene morality, Zionism, capitalism, and so on is to be not only genuinely heretical but a downright outlaw in today's society. Wherein even now writings or speech are restricted and seen as off-limits. You indeed promote hate and genocide yourself by championing Zionism. And if your myth of the Holocaust is indeed correct then why must it be made illegal in so many countries to question it? And why is it anti-Semitic to do so? To question the Armenian genocide isn't seen as illegal or heretical anywhere on Earth that I'm aware of. To champion and praise Joseph Stalin, Vladimir Lenin, Pol Pot, and other similar individuals isn't treated as “evil” when it is statistical fact that they

murdered millions more for even stupider reasons – ie missing work or being late for work, being Buddhist, etc.

What's more there is a clear preference by society right now to prefer whatever is peaceful and in times of peace there is bred a type of soft, weak, degenerate and ultimately lazy type of individual who is gluttonous, entertained by brainless forms of entertainment consisting of flamboyant sexuality, and spends most of their time or day engaged in such meaningless tasks that they died before they ever lived. The cemeteries are full of people who died never daring to chase their dreams or make their most desired experiences a reality. Instead they were held back by conventional morality or by envious mediocre individuals who wanted whatever position or gifts they were given out of spite or malice and they were ultimately too cowardly to take a stance and defy said individuals. They didn't have the gumption or natural leadership ability and self-sufficiency to one of the few daring and proud enough possessed with a self-confidence and belief in their own destiny. To dream a dream is to be held back by society full of as it were individuals too mediocre, undisciplined and lazy to act. Or perhaps too scared or cowardly.

Originally and this is a genuine heresy to state there was an inversion of how things were supposed to be. And our future was stolen from us by those who followed the "law of the jungle" which is an inaccurate description of Satanic ethos – Satanism creates a new type of breed but due to the nature of both Satanism consisting of natural born leaders who would enact brutal justice on even each other if it was required and necessary to further the Sinister Dialect of History or as a way or means to build character and achieve our own individual destiny. For no one's destiny should be held back by anyone that is in essence worse than death. By this inversion of the natural order of things and via the forms created by those elders we have the rotten degenerate and ultimately tyrannical slavery we all live in today. Whereby we are kept domesticated like cattle by mindless drivel and entertainment. And all developed a sense of pessimism and cynicism about the future. In essence becoming nihilists who prefer inaction to action because humanity has progressed to a state where it must truly want to go extinct. Yet I am labelled "nazi trash" for this. When in essence any other race right now regardless "objectively" if race exists or objectively if the lie of the Holocaust is a lie could and should be in power. Since whites have revealed themselves by this inaction to be primarily deserving of genocide and embracing it. Nor is it even worth it to die for your own race when they wouldn't even die for their own family, children or wife. That is because unlike us the real Satanists most people are ignoble weak cowards who seek to suppress us and our ideas. Even most National Socialists are ultimately too unintelligent to realize this. So why should Satanic adepts aid them? Either side ultimately gives us a sort of malice. We are hated by the far-left, far-right, our own countrymen or race – if your white and white only you are supposed to hate yourself and feel guilty – a guilt I never have nor never will feel my only ultimate regret is that we lost as Leon Degrelle said, and pseudo-Satanists and other armchair occultist types who laughable ask about this or that spirit or demon. Hallucinating or more likely as indeed unlike you all I am aware of the existence of both demons, spirits and the Dark Gods including Satan himself whose true nature is terrifying some cockeyed delusion that they can communicate with the devil or such. Which is what such charlatans or psychotics such as E.A. Koetting, Michael Ford, Anton LaVey, etc. Have done. Meanwhile at the same time espousing the erroneous belief that there is nothing praternatural.

Causal time is in essence a slow and steady decline to the inevitable dissolution of the Cosmos (solvet saeculum in favilla) but to accept defeat like everyone else has done is to accept cowardice and to become a pessimist and cynic. And ultimately on that path you become misanthropic and nihilistic which leads you to become a Sinister failure because you either end up suicidal, viciously violent and sporadic, or de-evolutionary. Where you mistrust and hate everyone regardless of who they are and if they enemy or friend. Or if you accept a more tolerant way of seeing things as neutral to everything a passive observer one who ultimately takes the path of inactivity but engages the thoughts and actions in neutrality becomes a Buddha. And via the eternal struggle of time there arises individuals who via *kampf* or *krieg* offer a heretical dialectical approach which is antithetical and off limits to all except the rare breed the new evolutionary species. And that is ultimately what I have achieved and the rest of you ignore foolishly. Foolishly viewing the whole picture as a primarily intellectual thought-experiment which is also become too much for some. The babyish human vegetable engineered by the capitalist Magian-Nazarene system is a consumer of the most degenerate and disgusting pornography, abuses drugs, is patriarchal and opposes the feminine, is dishonorable and cowardly but most certainly always sly or clever but never violent, possessed of a lack of Satanic insight or wisdom – lacking a type of gnosis of darkness or geryne of Satan never knowing nor creating the Sinister Changeling known as the Baeldraca, existing still within causal time neither against it nor above it. Never seeking to conquest, explore, defy, fight, oppose, rebel or dream a dream that's beyond the scope of human comprehension. Never catching glimpses of their own destiny and where it may lead them. Never being aware of providence as a guide or impersonal fate and the unseen forces. Never imposing upon themselves a strict physical training program where they build an impressive physique and strength. Never running for hours on end until your legs want to collapse from under you. Never feeling sweat drop down their forehead with their heart pounding in their ears. Instead they prefer to hurl insults always anonymously or threats on such peripheral mediums as the internet. Well I am quite frankly tired of these posers, frauds and pretenders who have hijacked Satanism and ruined it like they ruin everything else they touch in a reverse midas touch where everything gets turned to mediocre trash or edgy delusional psychotic horseshit based on blood and guts and nothing else. And what's more none of these individuals ever commit any real acts of terror or violence they merely write about them which while heretical they shouldn't be seen as rapists, pedophiles, terrorists or murderers. It's just writings which were designed with a real purpose not to incite as such but if a weak-willed individual read something and went out and killed someone for Satan then ultimately it was a "good" thing. Or it most certainly doesn't matter in the grand scheme of things when the government via police kill innocent people day in day out and via wars and other conflicts have killed millions more. By forcing the rule of democracy and freedom on people who do not want to be controlled by Zionism like the rest of this world. Or the degeneracy and impersonalism of the West. Most Satanists are a higher calibre and possessed of a higher intellect or higher taste. Trust me when I say this is purely a temporal thing for me which will be ending soon as I've gained insight – insight that people are primarily too lazy and unintelligent to act. There is absolutely needed a re-evaluation of morals needed because this is obviously not working for humanity as a whole. And no longer do Satanists provide the balance needed for society. Instead they have become a posturing pseudo brand of Magian trash. This is where the Luciferian and ultimately Wamphyric-Luciferian is needed.

The ultimate “problem” if there was one is that slave morality not by strength – ie impersonal or personal violence done for some ideology or religious or political form that fits the ethos of the Western Aeon such as a non-racist ethical (or ultimately unethical at this point) totalitarian fascist dictatorship, National Socialism, Non-Racist Ethical National-Socialism, anarchism or subverted Magian forms such as Racialist Totalitarian Communism. In essence any form far-left, far-right, anarchic or religious such as extremist Aryanized Islam but also Aryanized Nazarene, Militant Hinduism, Left-hand path Sufism, Hermeticism, or anarchic optimistic nihilism has become useful in getting rid of this valueless useless society. However, in actual fact due to how things are further dialectic is no longer necessary because we’ve in essence engineered your downfall by said methods. Now we just as terrorists sit back and watch the explosions. And all the imitators, liars, antifascists, journalists – who are neither good nor bad just document the story in a way favoring the masses or for entertainment not realizing what they are undermining but ultimately it’s irrelevant as it’s too late, pretenders and frauds are going to disappear back into the nothingness they came from. And they will no longer be relevant because only a new breed of human is going to survive the resulting chaos. And ultimately even most of us will die but defiantly and guaranteed ultimately some sort of Valhalla as spoken about in Aryan myth for millennia for those who die in battle. Having been clinically dead I can tell you there is nothing on the other side for those cowards who by their own hand take their life. Self pity is weakness and weakness is decadence. No one cares for your self-pitying depression which nowadays everyone has a sort of nihilistic bleakness even Satanic adepts.

What’s seen as good by society should be seen not as what’s good for the community or masses. It should be seen as what’s good for the few who dare to dream. Men of a noble and higher culture with a sense of honor and responsibility towards the human race. Which up until now the history of humanity was written by the Aryan now it is written by literally everyone else. And the Aryan champions this they are so glad to be culled off. And I say good riddance to them the sooner we disappear the better ultimately because we are a sickly slave race ultimately and we love being slaves. We must be so cowardly and unable to defend ourselves from any other race. Islam or some other form of Nationalism will hopefully arise and spell the end for the Magian. Since the days of the Aryan race are over. We still have another 200 or 300 years left before the Galactic Imperium but our dreams, our future and everything else was stolen from us by the Magian via subversion. And you worship them all.

the weak gain power by corrupting the strong into believing that the causes of slavery (viz., the will to power) are evil, as are the qualities the weak originally could not choose because of their weakness. By saying humility is voluntary, slave morality avoids admitting that their humility was in the beginning forced upon them by a master. Biblical principles of humility, charity, and pity are the result of universalizing the plight of the slave onto all humankind, and thus enslaving the masters as well. "The democratic movement is the heir to Christianity"[6]—the political manifestation of slave morality because of its obsession with freedom and equality.

The weak have gained power by corrupting the strong into believing that they are slaves because the qualities of the weak which are based on the Bible so ultimately originating in the New Testament from the Old Testament hence proving there was a Judean distortion which is illegal to point out because it would spell their end. And if someone is reading this at all just know that if that point in time where via

some ritual (the dream of the cross eclipsing the sun – perhaps a vision of what was to come) or other underhanded means the Roman council decided on what the state religion would and included all but not of the Gnostic texts would also ultimately lead to fascism via the form of anti-cosmic Satanism. And they did this by primarily saying that to be humble is a virtue. To turn the other cheek is a virtue. Yet the Magian themselves such as Anton LaVey don't hold this point of view they say as it were "smash them on the other cheek" – which is stolen from "Might Is Right" by Ragnar Redbeard who was an Irish or Celtic anarchist who was I believe an abusive alcoholic who got shot. Ultimately a loser unlike Nietzsche. And they did not arrive at the same conclusion as erroneously is believed. In fact I believe the original authors of the O9A MSS knew all this. Or arrived at this conclusion. They started off as beginners but ended up as Masters. And they gave the secret of Mastery first but it should come last. Since it can in essence lead to where most all of you have arrived as Magian-bred trash. Not only that but charity – giving all your hard earned money to loser nobodies who refuse to get a job and ultimately use said money for drugs or alcohol or other worthless things and pity – a disease which makes sick the strong. Ultimately, I survived poverty so what doesn't kill you will make you stronger. And whether or not you survive is irrelevant cosmically but important when you are a minority racially or otherwise. And racially as a whole whites are a minority not other races. I was a minority in Southeast Asia but did I indeed complain? No I adapted to the culture and was welcomed for it. Unlike most Americans who were loud and vulgar and indeed so were Brits unfortunately. In fact they placed the plight of those who are naturally slaves or were and are slaves and therefore have a lack of power and in this lack of power beg, plead, and otherwise try to get the strong or master to have mercy upon them or spare them from death on the master or strong. And when the strong had this placed upon them they became enslaved and via being enslaved first the white race declined and then the human race declined and will decline until another race such as Asians, Slavics or Arabs rise up and do something about this situation. So ultimately it is only due to a lack of understanding not only of Aeonics but history and morality that you all deny me. Via realizing all this and denying enslavement I have become a master for I would rather die and to die defiant is a death befitting the Satanist.

They did all this at first via Christianity or Nazareny and then through such systems as democracy, democratic socialism, cultural marxism, etc. And ultimately the capitalist system itself while possessing a sort of "Might is Right" ethos is their lifeblood. They became masters not because they were strong and powerful but by banking, entertainment, academia, democracy, "freedom" which they won't give us now nor never nor will they admit they hate us, religious forms such as Nazareny, etc. While Islam is patriarchal and the Aryan as never been misogynistic or homophobic as you can tell from such societies as Sparta, Ancient Greece and Rome – just having sort of laughably here a system of going "prison gay" of which I think mostly queers are degenerate. Male queers primarily as who really cares what women do ultimately? They nurture and love us and give birth to conquerors. Why mistreat them? In either case they won't admit what they did now or never but the answers are there for those so curious it can be found in the Antichrist by Friedrich Nietzsche. By giving you power I am taking the power away from the Magian. And I am whatever you say I must be for you say it. I must be Nazi trash when I care so much for humanity yet it does not matter that I care. This is more than mere Satanism do you not understand? Will you not all wake up? Will you just all shut the hell up if not? Either sit in the corner and be quiet or stand up. Start at least writing. Inspire actions in others those who are noble,

honourable and strong. Or instead of that go out and do something yourself. Champion Islam, champion National Socialism, champion anarchism, and at this point even champion Communism. Once you understand the hidden parts of all this any form is useful.

Race is ultimately irrelevant but a special people objectively is the Aryan and noted individuals such as Natives, Asians – both southeast and east, and Arabs were given that title. And blacks and Africans were treated not as slaves or hunted down like they were by the KKK. The far-right is ultimately consisting of bullshit individuals who are concerned with following Jewish forms engineered as a racial cancer to poison and sicken us. Do you not all get it? What I am doing? What risks I am taking? No you can't get it because you don't want to listen. Or that you realized long ago that it is pointless. Yet the truth is ultimately more tragic than you'll ever realize. And it's something realized by adepts I believe long ago that Satanism which was meant as adversity to God's chosen ie Jews has been hijacked by them too and by those who are primarily worshipping not incorrectly a form that does not want obedience and are consumed by their dark side. So to act against time is to act against the Magian knowing full well that such action is futile not only Cosmic but will result in defeat until that time when as spoken about in our chants Vindex descends to earth and establishes upon this Earth a new order which leads to Galactic Imperium and yes even that civilization will fall down leading to an eventual dissolution of the Cosmos back into primordial chaos which will either manifest things again or be gone forever. I'd prefer you believe it's gone forever because that would mean you know permanently that the Aryan race is doomed since you all delight in that. It's ultimately better that you think you've won because if you knew the truth that Vindex is not a human but a Dark God whose Vedic archetype is Kalki and was partially or fully manifest in Adolf Hitler you'd consider me all just psychotic. No matter what. So I'd prefer to be seen as crazy because it keeps you all distracted. Ultimately I am just writing right now but be careful because some people are intelligent enough and aware enough they can write but via the acausal published or unpublished enact change Aeonically or otherwise. This is real magick. And you cannot ban the word the logos for this is a dark logos. You foolish sly Magian. I do dare to defy you now and forever and if that means a prison sentence then you can come get me for I will not cower before you now or ever. Not ever. You understand? I stand proud and defiant before the annals of history and time immemorial as a man who stood up. Who was lied about and who was accused in a smear campaign of being this or that. But in essence it will fail because the truth comes out always and when it does you will look like the worse sort of villain. And no this is not directed at the Tempel ov Blood. Sutter may have been a lot of things but he wasn't overall harmful to anyone. He became I think on some level brainwashed by Communism or traumatized by prison so co-operated and due to lack of funds perhaps got greedy. And he did snitch on me twice. I'm going to leave it but I know for 100%. And I sort of can guess where he's hiding and who he's pretending to be now. However, I forgive you but if you snitch on me again I'll find you one day and end you. And nothing will hold up in court anyways. I outlined everything here in a non-violent non-racist way not promoting genocide of anyone nor terrorism. For ultimately you'd have to argue points you can't argue. For one I said whites deserved to die and go extinct, for two I said it's not Jews personally it's what some Jews believe Zionism and Judaism not all of them do and those who don't are allies but seen as race traitors by Jews, for three I am married to a Vietnamese woman and had a mistress who was half-native and am partially native myself but primarily white I'm white enough

there's no point to argue it very minor percentage just enough that regardless I'd be considered Aryan by the Third Reich which is actually irrelevant because they would have eventually realized the origins of the white race were perhaps from a non-white race such as in Tibet where they were exploring or more than likely ancient India. However, its entirely possible such a race was originally white but was invaded by barbarians from Africa and became non-white and such a thing is in actual fact happening to Asia and already happened to the West. Asia is going to be the new India if so a disgusting pit of garbage and human stool everywhere.

Ultimately, forcing everybody to accept egalitarianism was a clever, sly ploy by the weaker men and a tactic used by the weak regardless of race – ie the poor use it by begging for food and supplies and the Magian enslaved African-Americans yet they engineered via Communist individuals such as Martin Luther King who was an adulterer not perfect very flawed individual the morality of the slave upon the Americans who would have realize in post-WWII or the First Zionist War that the Third Reich should have won and eventually perhaps because of the balance provided by Nazareny or women or by empiricism which is the Faustian way – I primarily think we should make decisions based on logic from an impersonal statement based upon evidence but have to act in a way which is also like Dionysius (one of the real names of Satan the other is Apollo – in fact Satan is Dionysius and Lucifer is Apollo and together in the same individual would be an individual such as Caligula a mad Roman Emperor who despite being a degenerate queer also enjoyed numerous women, orgies, wine and such but ultimately didn't conquer Albion which was perhaps protected or following the tradition of the Dark Goddess Baphomet but union of these two figures the Matriarchal figure and the Satanic/Luciferian individual and keep in mind because Satan is both dark and light he is both Satan and Lucifer it is a Magian distortion that they be separated but also a hidden secret of the adepts). In other words they are balanced and primarily the role of the Rounwytha is to keep them balanced. And the combination of such is chaos or non-being the acausal which leads to the archetype of chaos dragon or Tiamat which is mother of the Dark Gods. Yahweh being ultimately the Demiurge because he is the Chosen of God's people. And Satan descended in the Garden of Eve and seduced Eve who gave birth to Cain or Qayin be Samael who became the first murderer and who was cursed to walk in Undeath as punishment. And via his bloodline was given the task to presented as Falxifer the individual who would manifest Satan's rage in a personal form Vindex and avenge what was taken. And ultimately the entire Aryan race is descended from Cain or Qayin by spiritual bloodline. And that is why the Tempel ov Blood head not Sutter who remains in hiding and snitching is scared to unleash a certain individual upon us all. One who may be enslaved himself as I recognize and have recognized and whom Satanic adepts have chosen. And also Cain has a sister via Lilith who is Darkat and Sumerian not ultimately Magian but indeed I believe on some level the Magian based their mythos or are descended from the Sumerian or Canaanites but also these people used to sacrifice Magian babies to Moloch. And Lilith is anti-life or represented by the woman who strangles her baby at birth with the umbilical cord. Heterosexual and gives birth to the spawn of chaos – Wamphyri or female succubus (not male incubus they are not both the same this is a queer distortion). Baphomet is Sapphic or perhaps Bisexual. Either of these figures could be presented as the mistress of Satan but Satan is primarily as the Mormons intuited about their illusionary God polygamous. He has numerous lovers. And Baphomet is as such too. However, as a Vampress she preys upon the hubris males who not necessarily are sad and lonely

but have the patriarchal ethos. Ultimately a balance of both is needed for to be effeminate as a man is to fail but to be cruel and unjust is to fail. A good example to follow is perhaps Richard Moulton or David Myatt on how to treat women. As a gentleman primarily but also aware that most women will fuck you over in life and treat you like dirt. Even if you protect them. So stay cold a bit aloof from them. Don't have love for bloodsucking succubus. Some of us anyways cannot date or such we have too important of a mission to achieve. And by our psychotic nature scared off all but the most loyal type women. It doesn't mean you are not special or important it means in essence you are step above society. Even those who are conventionally beautiful struggle with relationships that's how alienated society has become from one another. Promiscuousness and feminism have ultimately ruined things. As whilst the rare few engage in polygamy and get away with it the majority get nothing or little. Yet that is the essence of evolution it prefers the man who gets plenty they have more resources to survive. Such as myself whose kept two mistresses and a wife and been a devoted lover to all three. And all were aware of each other. One mistress was particularly unfaithful but ultimately I did the same thing yet if she hadn't I would have just been with her.

An understanding however regardless of my ramblings is needed. While I am not perfect by any stretch I know what needs to be done. And ultimately I can't say it doesn't involve violence or terror. It shouldn't it should be peaceful but they won't show us any quarter so why should we show them quarter? Mercy makes sick the strong! So based on this we have a new Code of the New Aeon – for all individuals who are Falcifer-Luciferi 13 to follow. This is not a moral code or ethical code. It is a way for you to defy society and subvert the Magian. It is acausal, Aeonian and real magick which cannot ever be made illegal.

Code of the New Aeon

Until at which point the Tempel ov Blood physically attacks one of us or does something else such as informs on us the police we will not retaliate but when we want and it should not be otherwise allowed to criticize and offer insight. Ultimately you have the ethos you cannot be questioned or denied or you will enact vengeance or power. Whilst this is ultimately Aryan it comes from a point of supporting a Magian individual. Until which point it is clear Sutter is no longer involved and that you will not do harm to our members or our person then we will not trust you but out of respect as so far individual members have not do so we will not enact Satanic justice upon you. Which never comes from a place of malice but is done impersonally without the support of the police and does involve culling ultimately whereupon you will be given a first and second chance. And then if you fail – which most do you will be taken care. Ultimately via the Cult of Santa Muerte. Who may or may not become your replacement. As you were supposed to become a dangerous Aryan cult but instead you became a honeypot promoting any sort of extremism for the sake of extremism. Unlike Myatt who did it disrupt the

Magian. Hence Myatt was more Satanic and ultimately hoo. Myatt will always be Grandmaster because he invented all this and discovered or was led to discover the acausal perhaps by a Satanic Mistress. However, most all of the O9A came from sources which are not illegal yet but will be because they will be considered “hate speech”. So Savitri Devi, Friedrich Nietzsche, Oswald Splenger, etc will all be banned and outlawed. Even their non-political ideas. Anything connected to them will be erased from history. Nietzsche not erroneously was not anti-Semitic because for one Semites are both Arabs and Jews and Jews will not allow Arabs the right to co-exist. Nietzsche was anti-Jewish in essence but did not hate Jews for what they did. However, they took his ideas and applied them. As well as Darwin who in essence proved there was no God. Ultimately Darwinism has been hijacked and distorted and the patriarchal ethos dominates that is why the feminine is presented. However, I am primarily presencing the ethical non-effeminate way that is balanced. As I know what it is like to be preyed upon but it did not kill me it made me stronger and when I came back from what others had did I became enraged and enacted Satanic justice upon them. Satanic justice can ultimately due to it’s nature self-overcoming is a form of revenge. Inaction is not Aryan. As someone told me once swing first ask questions last and I learnt in prison violence is honorable and noble. The weak don’t want you to know this because you’ll destroy them. And if you go in any fight willing to die and death is peaceful non-existence or Valhalla for combat any form but not for those who don’t fight. They are cursed to die a coward’s death and die twice.

But why would I want to destroy something I helped build? Because I didn’t ultimately I felt left out so much and while Sutter was a nice fatherly figure and not a real pedophile – Fleming is a real pedophile and ultimately I can’t support paedophilia. However, being a victim of sexual abuse makes you weak because many go on to molest children themselves or become sexual deviants. Or queers etc. So it’s something you should keep to yourself if you are a molester or were molested. It’s not your fault most certainly but women and children are inherently weak and men who get raped are weaker than both ultimately and on some level deserving of it. Why? Because they should rather die than take it up the ass like a degenerate queer. Whose flamboyant parades and rainbow flags has made a mockery of both National Socialism, fascism via the ultimately queer Mediterranean types ie Romans and Greeks, and Satanism. Ultimately, the Vedic society was women had arranged marriages and were protected by men never raped. And Sutter didn’t ultimately support rape he did tell others sometimes to slap their spouse which I did a few times so I’m ultimately guilty of. In any situation children or women shouldn’t be slapped around because it makes them scared and when they are scared they’ll resent you and children especially will grow up and plot your demise. There’s nothing wrong with a young man taking an older woman as a lover but there’s ultimately something inherently disgusting about the reverse. And whatever is naturally disgusting or revolting to humans is anti-evolutionary. So either you learn from your mistakes and build character or you get culled. No other options. And yes unlike ToB individuals have culled that we aren’t officially associated with and for lesser ultimately. Choosing a victim whom no one missed. Ultimately this can’t be investigated since I wasn’t involved and it was ultimately perhaps a legend or fable but there is something really genuinely evil about it all. I won’t name names because the work is hidden now. But it’s there. To be an adept you used to in a historical context have to cull.

Ultimately abusing women, children, drugs or alcohol is anti-evolutionary and the ToB sort of championed all of these so it’s not Magian because I don’t believe ultimately Jews are inherently

abusive perhaps because of how they were treated they indeed are getting a karmic revenge against us but it's just anti-evolutionary and despicable behaviour. Ultimately promiscuity while not conducive to monogamy is conducive to evolution because it ensures many children are born and a man having many lovers means he can father more children like the SS were told to do. The original Waffen SS. Historically one just need study Leon Degrelle to know either the Holocaust happened on a smaller level then ceased as they realized how cruel and inhumane it was and deportation was planned or non-effective (a ship was scuttled sending Jews to Israel at one point and the king of Madagascar declined to have them there) or most unlikely due to scratches and blue dye on the walls in the chambers themselves which until a neutral third party can test for accuracy cannot be counted as 100% real but real evidence enough. As if it was a murder scene it'd be admissible in court as evidence and they'd be found guilty. And court is very impersonal and impartial despite what the media says. And doesn't naturally favor women. Sometimes favors men unjustly.

And so all of these ethos were taken in consideration in writing these. And also the inherent nature of honor. The fact that honor between comrades is not just a warm and fuzzy feeling but bonding. And it is not "queer" or weak to have honor. It's easy to be a liar or manipulative and then blame it all on a complex psy op etc. Fanaticism and extremism are not Aryan traits we just go into berserker mode sometimes. But an Aryan does not say and he does so in a fair just way. However, ultimately in a war there must be some dirty underhanded tactics you must take a firm stand. Such that if you do an insight role as a Communist that you are there to disrupt Communism either promoting the racialist form such as Juche, anti-Zionist Stalinism, or National Anarchism ie rural small communities of all whites or folk. And due to our empathy with Nature via living in such rural areas and having an awareness of seasons and also how seasons relate to Aeons which is the scale of the Rounwytha trained in our ways that one can champion ecofascism or a racialized form or Nationalist form of say the Green Party focused on both animal rights, stopping deforestation and preserving the white race's homelands. And if non-white can continue especially if black to champion Black Lives Matter, anything anti-police, but nothing outlaw or criminal instead follow the example of honor and respectability be intelligent so that others will not unfairly hate you for no reason, put an end to gangs and gang violence unless you are militarized into cells of 2-3 people willing to fight for the African ethnostate which the Third Reich would have given you and so would have George Lincoln Rockwell then you are failing your own race. National Socialists opposed the KKK. And on the buses in war they made the blacks sit behind the National Socialists. Don't primarily be offended by words. No words are needed censor yourself.

And now primarily my website goes offline now as it served it's purpose. Really to make a code of honour is not needed nor necessary. Everyone follows their own individual judgment but acts rationally coolly out of impersonal justice. Ultimately there's hell coming for me and there'll be hell to pay for writing what I have wrote. But I have to take a stand and be bold be courageous. This is for the good of humanity and if I die in the process or go to prison I must. I just wanted to save the world.

Ach, es entschwindet mit tauigem Flügel

Mir auf den wiegenden Wellen die Zeit.

Morgen entschwinde mit schimmerndem Flügel

Wieder wie gestern und heute die Zeit,

Bis ich auf höherem strahlendem Flügel
Selber entschwinde der wechselnden Zeit.

Ultimately the O9A has Aeonic goals and the ToB's goals were anti-evolutionary and Magian. Perhaps when Lord Karnac left it became so. However, I think on some level it's due to attracting sadists. While sadism and predation is glorious it ends up creating individuals like Ian Brady. Cold as steel predators but those who harm children who are still developing and growing. And this creates individuals who either go on to abuse themselves or come back for revenge. It creates people full of hate and anger. However, those few people can go on to be great individuals. Because all that is great is built upon sorrow. So I was abused mostly my whole life by others because they didn't want me to take revenge and I could have but I didn't. However, as I grew in power they grew angry and tried to say revenge is bad and authority is good etc. So ultimately revenge is an action by the strong against the weak but it is also decadent insofar as it can lead to both sides being destroyed. Yet to argue against revenge on either end is to be weak. Because to fear death keeps you dead and a coward dies twice. Ultimately have death before dishonor. And one strong action stands the test of time. One act of violent terror done by one or two individuals at maximum three will stand the test of time. And be ultimately a good thing where they will be heralded as martyrs for what they did. As they did something that can only be considered an action of bravery and self-sacrifice. Ultimately I could never commit an act of terror such as a shooting – which is stupid to begin with and wasteful nor would I commit a murder as such. Culling is different. But it is hands on as well but not in this context. It can't be explained anymore. It's historical academic etc.

I will keep my mouth shut but I suggest ultimately if you want to take action that you either get up close and personal with a .22 caliber pistol or better yet .45 aim for the chest and then head two to the chest and one to the head but primarily center of mass in the chest. Or you make a non-metal PVC explosive device and take out targets with it. Or what a smart man would do cut their break lines or have them fall off a boat etc. In other words they have an accident that they can't pin on you. And whatever they disprove in court once they can't keep coming for. And once an investigation is closed it ultimately won't get reopened for years and goes cold. There's a timeframe on how long it can be kept open. They are always ignoring missing people reports and such. And you get more time for a break and enter in some cases than a murder. A murder can get you 13 years sometimes and before it goes to trial could take 2-3 years plenty of time to get out of the country or whatever you had to do. It's only if your blocked by Interpol you can't travel. But the French Foreign Legion like I suspect Anton Long joined isn't a place for the wanted man anymore or suspected wanted. Trust me I was there briefly.

Either case I hope you enjoyed reading this and understand where I am coming from. This is primarily a war and in a war we need to take action. Before you follow this code you must state aloud before the banner of the National Socialist flag with a black cloth altar. Sharpened survival or combat knife and bust or copy of Mein Kampf. Wearing a military uniform that is Typhon Camo or Dark Camo with or without a balaclava. Without because you will not be a coward. Take the knife slit the left hand and pour the blood into a cup of port wine. Burn the incense of Mars and place the palm on a printed

medieval contract sealing yourself to Satan. Burn it in the fire of a black candle then proceed to deface or burn holy hosts after urinating on them. And declare as such:

Creed of the New Aeon:

- I acknowledge Satan, the god of the raging Chaos as my King and Father, and submit myself to his only law-which is The Heretical Sinister Law of Justice based on impersonal judgement but cool rational thinking keeping in mind the full responsibilities and repercussions if said thing results in consequences. I accept if I do evil and claim it as an act on behalf of my organization it will be taken as harm done not an act of sacrifice and I will be culled if I inform to the police or lie. And I would never claim to be Falcifer-Luciferi 13 to anyone not in private or public because we do not have members and do not have a leader. It is the writings of a collective which are based on an ancient tradition that must survive.

- I believe in the truth which is beyond all forms, and in one word that will destroy the lie: that word is the logos. Which was distorted by Jesus the Nazarene who is the false Messiah and false prophet he was sent by those who hate the noble Aryan race to destroy without sword but taught us combat is villainous. He taught us the lie of Hell which is a myth and in combat we shall seek Valhalla. For the Dark Gods are eternal and ancient and have lived as many forms. From Vedic to Hellenic. And now the Western. Satan is shapeless chaos which takes any form which espouses evolution. He is unbridled pleasure and violence. Tempered in the light of Lucifer he is empiricism, wisdom, and gnosis. Combined with Lucifer and with his Mistress Baphomet he gave birth to the Aryan fire-born race in contrast to the Magian clay-born who are of the Demiurge. And the acausal energy when it dominates is evolutionarily by the process of it flowing into the consciousness from the unconscious shadow self which is the link to Satan and our true self. Once we find our true self then we go beyond for otherwise we are still human. And to be human not Wamphyri is to fail. But to be Wamphyri-Luciferi (Noctulian) is to be as a God.

- I believe in the battle and the cause, which is the bringing forth of the dark aeon, and I am therefore prepared to sacrifice my enemies and if necessary my own blood to hasten the return of the Dark Gods. We declare Noctulian Jihad on the Magian-Nazarene not as individuals but as an ideology. And we will use acausal means to do so which no government can make illegal. For forms are forms but to be formless is become one with Satan and that is how we survive into the afterlife. To go beyond Satan and beyond due limits is to become a God. To leave earth and causal not upon death but whilst living as a spiritual master. The Spiritual Master of Falcifer-Luciferi 13 is Algar Black.

- I believe in courage, strength and power and therefore despise pity, mercy and cowardliness, which are the shackles of the old aeon that hold the weak enslaved.

- I believe in discipline and loyalty. For to achieve the goal which is Chaos, order must first reign in our own ranks.

- I reject Yeshua the Deceiver and all his works. And heretically stand defiant before history. I declare (raise the knife in the air in Hitlerian salute and drink some of the wine) that all that is weak is de-evolutionary and all that is de-evolutionary is weak. So I hereby reject all lies and illusions. And

give praise to our Dark God Vindex. Agios o Vindex! Vindex est venturas! (Burn incense perfume of Saturn (CHAOS) or annoint yourself with civit oil)

- Now take the Quartz crystal in your hands and vibrate Agios o Baphomet 3-9 times preferably 9. Declare “Oh mother of bloodshed and dark nights of evil I declare my eternal love and devotion to you. For you are she who has no form and the essence of formlessness is sacrifice upon the blood stained altar of time)

- I believe in and support impersonal violence done after personal judgment with rational intent suppressing whatever mercy I need to suppress for I realize these are not innocent victims but enemy combatants or tyrants. In order to protect my honour if someone does me wrong if I cannot reason with them I will enact Satanic justice. If I cannot enact Satanic justice I will hold a grudge until I can. I will be swift and ruthless but cold and calculated. I will not allow myself or others to be abused like a coward without honor. It is the duty of the strong to protect the weak from the sick or weakest links of evolution. For to prey on your own women, children, or race who have done you no harm nor done no harm to women or children is degeneracy.

- If someone abuses women, children or drugs they are no longer of our kind and are exiled. We cannot forgive or forget.

- I Praise the Dark Lord with all my heart and Soul and wait for the final war, victory and triumph that shall come.

Finish the wine and shout Hail Victory!

Note: the ritual is ultimately unnecessary but the knife and military uniform is. If you do this publicly by nature of it being a secret task you need to wear a balaclava. Not a skull mask as this has been subverted by the enemy.

The Antinomian Law of Sinister Justice

- Disguise yourself among your enemy as a bloodthirsty werewolf disguised as a sheep.

- One single strong act of violence and terror is worth all the words ever written.

- Lucifer is our ideal so conquer, destroy and create. And wherever you may go sow the seeds of wisdom, revolution and knowledge.

- A society is formed when those who cannot protect themselves from the might of the strong sow the lie of democracy. Therefore always seek to heretically defy proudly and stand tall with your shoulders firm against the mob. When they vex you curse them when they curse you kill them.

- The grim truth seeks free the strong but culls the weak. For weakness is illusion and illusion is freedom.

- Lie if you must but slit your own throat before you lie to yourself.

- Only the law of individual will exists nothing else. Rage against the machine and make war on all who oppose your destiny. It is your rite to take the throne of skulls upon the battlefield of history. And take for your bride Baphomet and take for your concubines any. For only a flood of blood, limbs and severed heads will end the subhuman moaning for mercy and pity. Pity which they do not get in their own Bible and mercy which is not shown. Arise Arise Arise.

- The elite can never degrade itself and sink to the level of the unworthy scum, democracy must therefore always be fought by all and any means necessary.

- Only by terror does the elminority make itself heard.

Our will is the law and our law is the new aeon.

The fulfillment of a Satanic or Aryan life is to die in battle. For only in battle can we seek Valhalla and only in Valhalla saw we find peace.

Be ruthless and without mercy for it is a stigmata of the strong to spare the weak. Never be fair to the sworn enemy. Give no quarter. He who lives by the sword shall live by the sword for only those who submit die twice.

Make war for the sake of war so that the blood of your enemies purifies your soul and he that casts the darkest shadow brings the most light. And that is difficult and harsh is glorious and brings us towards Satan. Every tragedy is built upon greatness. All that is great is built upon sorrow. And he who stands atop the highest pyramid of skulls can see the furthest. Be fearless and unknown seek all that is forbidden and restricted. And go beyond your limits. And that which does not kill makes strong. But remember now to die in battle is the last victory of the strong.
